From our workshop and warehouse in Haarlem, we offer complete solar and wind systems for grid connected solar projects, off-grid applications, micro-grids, hybrid power, and project-based ...

Nearly 80% of solar power installed in the Netherlands in 2017 was for small systems of less than 10 kW, a large part being rooftop Solar PV. Larger systems over 500 kW accounted for just 6.9% of the total. By the end of 2018 private residential rooftop systems had an installed capacity of 2,307 MW, businesses rooftop systems 1,662 MW whilst solar parks amounted to 444 MW.
