What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Why should you choose a modular network solution?

Designed to save deployment cost and time,our innovative solutions include hub collapse,battery backup,composite mounting platforms and modular series cabinets. Modular capability helps future proof your networks so infrastructure can easily grow over time.

Why do MSOs need a modular enclosure?

As MSOs move out into smaller,cabinet arrangements that support a mix of active (power,battery and nodes) and passive equipment (fiber terminations and splitters),modular enclosures allow for mix-and-match compartments to fit site requirements.

Can a walk-in cabinet be built from the factory?

The cabinet lineup can be built and shipped direct from the factoryin the desired configuration. Amphenol Walk-In Cabinets (WIC) are protective walk-in enclosures housing an integrated system of electronic components and equipment that can serve fiber and copper interfaces.
