Why should you buy a portable power station in New Zealand?

New Zealanders love staying connected while they're out and about on holiday. Our range of portable power stations and solar-powered products ensures your devices are constantly charged on the go. Get the amps you need on-location and enjoy freedom from noisy generators. Shop for portable power solutions at Trade Tested online.

What is portable generator power station solar?

The Portable Generator Power Station Solar is a portable generator that is powered by a solar battery. It comes with an LCD screen that displays power percentage, output mode etc. It has 4x USB ports and 2x USB-C ports: automatically identifying and charging devices.

What is a solar power station Charger?

An all-in-one solar-powered battery charger with LED flashlight, portable generator power station, solar panels and recharging cables that keeps you charged up on the go. This portable power station charger has a built-in 87000mAh high-capacity battery, LCD display shows power percentage, output mode etc. It has 3x USB ports and 1x USB-C port.

Which portable power station should I buy?

The ideal portable power station to buy depends on which devices you plan to use and how long you will travel without access to a recharging point. Our 1526Wh power station offers triple the power capacity of the 555Wh model, making it the best choice for people continuously on the road or whose camping trips last longer than the weekend.
