What factors affect the cost of shipping containers in South Africa?

Several elements impact the cost of shipping containers in South Africa: Condition: New containers are more expensive than used ones. Refurbished containers offer a middle ground in terms of price and quality. Size: Larger containers (40ft) typically cost more than smaller ones (20ft), but they offer better value per cubic meter.

Where can I find used shipping containers in South Africa?

You can also see our used shipping containers advertised on Junkmail South Africa. At First Check Containers we regularly have in stock over 200 containers of all sizes ready for dispatch from our depot, and if we don't have what you want then we will work hard to get it for you!

Where can I buy a 20ft shipping container?

Here at Container Consumables, we have a selection of new, one-trip 20ft shipping containers that you can buy. With a volume of 348ft³, there is plenty of room for storage, with the size of the shipping container being less imposing than some of the larger containers, giving you more flexibility over where your container is put.

What are watertight 20ft shipping containers?

Our range of watertight 20ft shipping containers is designed specifically with overseas shipping in mind. Thanks to their standardised dimensions, they meet all necessary regulations, allow for easy loading and unloading right from your local depots, and can be easily stacked onto the back of a train or ship.
