What is a 40? shipping container home with solar panels?

If you're dreaming of a sustainable lifestyle, our 40? Shipping Container Home with Solar Panels is perfect for you. Built from recycled steel, this home is both durable and eco-friendly. With its own solar panels, you can live completely off the grid and reduce your carbon footprint.

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

What is a 40? off grid container home with solar panels?

The solar panels provide power for your lighting, appliances, and heating needs. You can also collect rainwater for your needs, which makes this home an ideal choice for those who want to live sustainably and self-sufficiently. Learn more about the specs of your 40? off grid container home with solar panels below:
