### How much does a solar panel roof cost?

In contrast, a residential solar system cost is about \$20,498 on average. Specific costs will depend on your energy needs, and many other factors. Either type of solar panel roof can help you do your bit to reduce carbon emissions and protect the planet.

### How much does a commercial solar system cost in 2025?

In 2025, the average cost for commercial solar panels is just about \$2.00 per watt. There is a lot to consider when figuring out how much you'll spend on a solar installation. Here are five steps to help you calculate how much a system will cost to install for your home:

### Should you install a solar energy system on your roof?

When you install a solar energy system, you're getting more than just solar panels on your roof. Multiple pieces of equipment, such as racking, wiring, and inverters, must be installed so the solar panels can power your home.

### How much do commercial solar panels cost?

Generally, installing solar panels on businesses costs a bit less per watt because the systems are larger, but the total costs will be higher. In 2025, the average cost for commercial solar panels is just about \$2.00 per watt. There is a lot to consider when figuring out how much you'll spend on a solar installation.
