How much do solar panels cost in Ireland?

Every house is different. However, you can expect to pay between EUR6,000 and EUR16,000. The costs cover the solar panels, inverters, mounting equipment, and installation fees. There are SEAI grants of up to EUR1,800 available. The good news is that the cost of solar panels in Ireland has reduced significantly in recent years.

Are solar panels a good investment in Ireland?

With rising energy costs and generous SEAI grants available, solar panels have become one of the smartest long-term investments for Irish homes and small businesses. In this guide, we'll break down the average cost of solar panels in Ireland, what influences the price, available grants, and how quickly you can expect to make your money back.

How long do solar panels last in Ireland?

Home solar panels have a payback period of approximately 6 - 7 years. High-quality solar panels will have a manufacturer's warranty of 25 - 30 years. What is the cost of solar panels in Ireland now? The average cost of a solar PV system in Ireland in 2025 will be approximately EUR7,800 with the SEAI grant, or EUR9,600 without it.

How much does a solar grant cost in Ireland?

The grant can reduce the cost of solar panels in Ireland by 25% or even more, and so it's a gamechanger for a typical family looking to go solar. In 2024, the maximum solar grant amount is EUR1,800, but that will be going down by EUR300 to EUR1,800 at the start of 2025. Find out more in our Irish solar grants guide...
