How much does solar PV cost in Europe?

The account requires an annual contract and will renew after one year to the regular list price. It is forecast that the price for solar PV power purchase agreements between 2025 and 2034 in Europe will range from an average of roughly 141 euros per megawatt hour in Sweden to 57 euros per megawatt hour in Italy.

Are solar and wind power purchase agreement prices stabilising?

LevelTen Energy's Q1 European PPA Price Index Report, which is now available for subscribers, showed a stabilisation of solar and wind power purchase agreement (PPA) prices in Q1 of 2025. Solar Prices Largely Flat in Q1

How much does PV electricity cost?

The cost of PV electricity is currently at about 149 L./MWh for the smallest-scale and 51 L./MWh for large-scale PV systems, already lower than the wholesale price of electricity, with PV systems predicted to get cheaper by 40%-50% until 2035.

How stable is Europe's PPA market?

Q1's PPA Price Index provides compelling evidence that Europe's PPA market has achieved the stability counterparties have been yearning for. With Q1's Market-Averaged Continental Index PPA price resting almost exactly where it did three quarters ago, pricing stability is undoubtedly here.
