How do original equipment manufacturers evaluate the ASEAN market?

Original equipment manufacturers typically begin by analyzing the ASEAN manufacturing landscape, comparing labour costs, production expenses, and infrastructure conditions across different countries. They also evaluate regulatory environments, trade agreements, and political stability.

Why are OEMs integrating supply chains across different ASEAN countries?

There is a growing trend towards integrating supply chains across different ASEAN countries to enhance efficiency and reduce costs. Throughout this process, brand owners need to ensure strict quality control to maintain brand standards. By the fifth year, OEMs aim to consolidate their position in the ASEAN market.

How is ASEAN transitioning to cleaner energy sources?

The ASEAN has initiated its transition to cleaner energy sources. This transition is characterised as Demanding, Doable, and Dependent. With approximately 700 million inhabitants, the region is witnessing a substantial surge in energy demand, projected to triple by 2050.

Why did ASEAN create a single trade bloc?

The charter formally established ASEAN as a legal entity, aiming to create a single trade bloc for a region encompassing 500 million people. Indonesian president Susilo Bambang Yudhoyono stated: "This is a momentous development when ASEAN is consolidating, integrating, and transforming itself into a community."
