How do I contact the county of San Diego's Battery energy storage systems project?

PDS.LongRangePlanning@sdcounty.ca.gov |(858) 505-6677 Learn more about the County of San Diego's Battery Energy Storage Systems Project.

Is a battery energy storage project coming to Naval Base San Diego?

An \$8 million battery energy storage project is coming to Naval Base San Diego, using zinc-based technology that its makers tout as nonflammable. Eos Energy Enterprises announced Tuesday the stand-alone system will help boost reliability of operations at the base and provide energy resilience to the U.S. Navy's western fleet.

What is a battery energy storage system?

A Battery Energy Storage System (BESS) is a technology designed to store electric energy for later use. It stores energy from the electrical grid, solar, and wind power. How does BESS support the electricity grid? BESS can increase flexibility of the grid, provide backup electricity during power outages, and reduce energy costs.

Where are SDG&E battery systems installed?

Typically, these battery systems and microgrids are installed on SDG&E-owned property; they are adjacent to our existing substation facilities or in critical locations where grid reliability and resiliency is needed most.
