What is a small BESS cabinet?

Small BESS Cabinets The small BESS series is a fully integrated battery energy storage system that's built to last. The Series is both scalable and engineered for modularity with a low MTTR, making it ideal for medium renewable energy projects.

Why should you choose a Bess energy storage system?

It offers flexible and scalable designs for various applications, whether you need a small or medium energy storage solution. Our BESS is modular, which means you can mix and match cabinets to suit your system requirements. Plus, it comes in two variants, AC Single Bay and AC Dual Bay.

What is a commercial energy storage system?

The commercial energy storage utilizes a high-density LFP Battery, which is a type of Lithium-ion battery that uses iron phosphate as the cathode material. These commercial battery storage systems are known for high energy density, long life, and excellent performance at high temperatures.

What is a large Bess cabinet?

Large BESS Cabinets Our large Bess Series features an AC single bay module capable of 29.7kW with options available up to 1MW clusters. These modules are perfect for on-grid solutions, providing reliable power for your applications. They are fully customisable and versatile, suitable for almost any on-grid application.
