What caused a power outage in Sofia 2024?

On Monday, September 23, 2024, a large area of Sofia, Bulgaria, experienced a power outage early in the morning. The blackout, caused by a fire at the Poduyane substation, affected traffic lights and electricity supply in approximately 10 neighbourhoods. The outage led to the disconnection of 220 substations, with restoration efforts underway.

Which Bulgarian neighbourhoods were affected by a power outage?

Bulgaria, Sofia: Early on Monday morning, a large area of Sofia experienced a power outage, affecting traffic lights and disrupting electricity supply to approximately 10 neighbourhoods. Among the impacted neighbourhoods were Poduyane, Suhata Reka, Hadji Dimitar, Levski, Orlandovtsi, Serdika, Slatina, Reduta, Sredets, and Oborishte.

Why is there no electricity in Bulgaria?

A fire stopped the power supply in the southwestern parts of the Bulgarian capital last night. For more than three hours there was no electricity in the Vitosha district, Krasna Polyana, Bankya, Triaditsa, Kremikovtsi, Lozenets, Lyulin, Ovcha Kupel, Krasno Selo. Due to the heavy snowfall, there is no electricity in many places in the Sofia region.
