As Zambia approaches its 2030 universal electrification target, photovoltaic storage systems are proving to be more than just power solutions - they're catalysts for economic transformation.

Announced on December 23, 2025, this initiative is part of the Presidential Constituency Energy Initiative (PCEI), which aims to deploy approximately 312 MW of solar capacity and 624 MWh ...

Recognising this need, the Ministry of Energy has initiated collaborative efforts to assess the role and applicability of various energy storage technologies in Zambia's power sector.
