Where can I buy low cost portable solar power stations?

There are currently eight reputable companies that offer low cost portable solar power stations available to UK consumers through online stores such as Amazon and eBay. We have to mention that we offer links to both Amazon and eBay products throughout our website and earn affiliate commission should you visit one of the links to a product.

How much does a solar power station cost?

Solar power stations at a utility scale will usually require a minimum of 1 megawatt to enable them to deliver electricity to roughly 200 homes. The expense will vary based on several factors like the available sunlight hours and location, but usually, the cost for a solar setup at this scale is approximately \$1 per watt.
