What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.

Which Inverter should I buy in New Zealand?

In New Zealand, we strongly recommend GoodWe's range of inverters. GoodWe's main advantage is having 3 MPPT's, which allow greater flexibility on how panels can be arranged and distributed on your roof to generate the most power.

What does a solar inverter do?

An inverter's job is to convert the direct current (DC) generated by your solar panels into alternating current (AC), the type of electricity your home or business uses. With a wide range of solar inverter options available in NZ, Lightforce Solar makes the obvious choice by using only tested and trusted brands.

What types of solar inverters are available in Aotearoa?

Victron inverters are also super versatile, allowing you to connect solar batteries, generators, and even other forms of renewable power generation, such as wind turbines and micro-hydro solutions. Now, hybrid inverters are fast becoming the most popular type of solar inverter available in Aotearoa.
