Does Scatec have a solar-plus-storage site in South Africa?

Scatec's Kenhardt solar-plus-storage site in South Africa (above), which went online at the end of 2023. Image: Scatec. Africa's energy storage market has seen a boom since 2017, having risen from just 31MWh to 1,600MWh in 2024, according to trade body AFSIA Solar's latest report.

What is the future of solar energy in South Africa?

By technology, photovoltaic (PV) installations commanded a 93.1% revenue share of the South Africa solar energy market in 2024, whereas concentrated solar power (CSP) is forecast to advance at a 14.9% CAGR through 2030.

What is the solar energy industry like in South Africa?

The South African solar energy industry exhibits moderate concentration, with the five leading developers -- Scatec ASA, ACWA Power, Enel Green Power South Africa, Mainstream Renewable Power, and Sonnedix -- controlling around 45% of operational capacity.

What is the growth rate of solar energy in South Africa?

Photovoltaic assets represented 93.1% of the installed capacity in 2024, translating to a dominant revenue position in the South African solar energy market. The segment maintained an 8.2% compound annual growth rate from 2019 to 2024 and now benefits from expanded REIPPPP allocations and surging private PPAs.

May 21, 2024 · "What we are seeing in South Africa is that the momentum around solar is pushing energy storage adoption. 8% of new commercial ...

Oct 25, 2025 · The South Africa Solar Energy Market is expected to reach 8.75 gigawatt in 2025 and grow at a CAGR of 11.75% to reach 15.25 gigawatt by 2030. Canadian Solar Inc., IBC ...

Executive Summary: The South Africa Solar Photovoltaic (PV) Market represents a beacon of hope in the quest for sustainable energy solutions. With its abundant solar resources and ...

Abundant Solar Resources and Government Support
Energy Crisis and Need to Reduce Coal Dependency
Growing Commercial and Industrial Solar Adoption
The commercial and industrial sectors are increasingly embracing solar energy solutions, as evidenced by the remarkable growth in rooftop solar PV installations. According to South African energy expert Anton Eberhard's analysis of Eskom data, the country's installed rooftop solar PV capacity experienced a dramatic increase from 983 MW in March 202...
