Overview Timeline of developments Solar thermal power plants Photovoltaics Policies, laws and incentives Research and development External links Through a ministerial ruling in March 2004, the Spanish government removed economic barriers to the connection of renewable energy technologies to the electricity grid. The Royal Decree 436/2004 equalised conditions for large-scale solar thermal and photovoltaic plants and guaranteed feed-in tariffs. Spain added a record 2.6 GW of solar photovoltaic power in 2008, a figure al...

What We Offer Grid-tied and off-grid solar systems Battery storage solutions Inverter and panel upgrades Maintenance and performance checks Full support in English and Spanish Ready to ...

MADRID, April 30 (Reuters) - Spain's grid operator denied on Wednesday dependence on solar power was to blame for the country's worst blackout, while Prime Minister Pedro Sanchez came under ...

At 12.33 pm, the Spanish power grid experienced a loss of generation in the south-west of the country. Most likely, these were solar power plants, but the operator is not sure yet.
