What is Sweden's largest energy storage investment?

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW /211 MWh into the region.

How many large battery storage systems are deploying in Sweden?

Fourteen large battery storage systems (BESS) have come online in Sweden, deploying 211 MW/211 MWh for the region. Developer and optimiser Ingrid Capacity and storage owner-operator BW ESS have been working together to deliver 14 large BESS projects across the Swedish grid in tariff zones SE3 and SE4.

Why do we need a storage site in Sweden?

Our commitment to Sweden's ambition of utilizing its renewable energy potential is at the core of our new site in Sweden, now one of the largest storage projects in Scandinavia. Clean energy requires a stable and flexible grid, which is why storage capacity plays a crucial role in the decarbonization and energy resilience.

Is the energy sector a good investment for Sweden?

"Developments in the energy sector present significant opportunities for Sweden," says Joel Görsch, investment advisor, for automotive and mobility at Business Region Göteborg. "The transition from petrol and diesel to electricity has resulted in much of a car's value shifting to its battery.
