How many hydrogen refuelling stations are there in 2024?

This is the result of an analysis by H2stations.org. 45 countries now have a hydrogen refuelling infrastructure in operation or under construction. However, by the end of 2024 there were only 1,160 hydrogen refuelling stations in operation worldwide. Of these, 748 were in Asia, with China leading the way with 384 stations.

Who provides hydrogen refuelling stations?

ALHP provided hydrogen refuelling stations for commercial and passenger vehicles integration solutions for Sinopec Group and Shenergy Group and the world's largest hydrogen refuelling station in Daxing Beijing.

Which countries have hydrogen refuelling stations?

The first hydrogen refuelling stations have been opened in the capitals of Bulgaria and Slovakia. New to the list of countries with operational hydrogen refuelling stations is New Zealand. The world's 1,160 hydrogen refuelling stations could soon be joined by more. There are concrete plans for at least 377 more refuelling sites outside China.

What is a hydrogen refueling station?

Hydrogen refueling stations (HRSs) are key infrastructures rapidly spreading out to support the deployment of fuel cell electric vehicles for several mobility purposes.

Oct 21, 2024 · LBST has operated the database h2stations since 2005, offering the most comprehensive information on hydrogen refuelling stations worldwide. Data is collected and ...

5 days ago · Hydrogen Fueling Infrastructure Analysis NLR's technology validation team is analyzing the availability and performance of existing hydrogen fueling stations, benchmarking ...

Dec 11, 2024 · The model we developed further reduces the computational complexity

while satisfying the 3-objective optimization. In addition, for the first time, we bring the actual data of ...

The sparse network of refuelling stations is one of the reasons why hydrogen for cars is not catching on. This is made abundantly clear by a new report.

The hydrogen is stored in a special hydrogen tank at the station and this hydrogen storage tank needs to be refilled with hydrogen. One of the main advantages of fuel cell electric vehicles is ...

May 24, 2024 · 1000 hydrogen refueling stations in operation globally, with a six-fold increase forecast by 2030 By the end of 2023, there were 1,063 hydrogen refueling stations (HRS) in ...

May 1, 2023 · Hydrogen refueling stations (HRSs) are key infrastructures rapidly spreading out to support the deployment of fuel cell electric vehicles for several mobility purposes. The ...

Feb 13, 2025 · The sparse network of refuelling stations is one of the reasons why hydrogen for cars is not catching on. This is made abundantly clear by a new report.

1 day ago · ALHP provided hydrogen refuelling stations for commercial and passenger vehicles integration solutions for Sinopec Group and Shenergy Group and the world's largest hydrogen ...

Sep 29, 2024 · Over the last few years, hydrogen has emerged as a promising solution for problems related to energy sources and pollution concerns. The integration of hydrogen in the ...

Over recent years, the construction of hydrogen refueling infrastructure has become a pressing issue for the adoption of hydrogen in transportation ...

Sep 29, 2024 · Over the last few years, hydrogen has emerged as a promising solution for problems related to energy sources and pollution ...

Over recent years, the construction of hydrogen refueling infrastructure has become a pressing issue for the adoption of hydrogen in transportation applications. Interact Analysis recently ...
