What is the best portable power bank?

1. CUKTECH 30 Power Bank The CUKTECH 30 is that perfect middle ground between a portable power bank and a mini power station. It's got a massive 40,000 mAh of capacity, which is more than enough for charging literally all your devices many times over on long haul flights.

Is the Anker power bank 25k a good portable charger?

While the Anker Power Bank 25K portable charger takes a long time to reach full capacity, it's incredibly long battery life makes it a worthy trade. We liked the retractable USB cable and display screen for the battery status, which we found to be very accurate.

What features should you consider when buying a portable power bank?

Pass-through charging is another feature to consider; with it, you can charge your device and a portable power bank simultaneously. That's convenient if both your phone and backup battery are running out of power.

Should you buy a power bank or a portable charger?

The best power banks are always handy. Our gadgets have a Murphy's law-like ability to run out of power at the least convenient moment: as you step on the bus, right in the middle of an important meeting, or just as you get comfortable on the couch and press Play. But with a portable charger, you can keep using your devices.
