Will Trina Solar build a battery energy storage system in Australia?

Chinese PV module manufacturer Trina Solar has received the green light from the Victoria government in Australiato build a 500MW/1,000MWh battery energy storage system (BESS). Trina Solar will build the Kiewa Valley BESS in the northeastern part of the Australian state,in the Murray-Darling basin,to the east of Melbourne,the state capital.

How many energy storage projects are there in Victoria?

773 MW of commissioned energy storage capacity and 21utility-scale storage projects with a combined capacity of 2,326 MW under construction or undergoing commissioning at 30 June 2025. Figure 4: Emissions from electricity generation in Victoria,2013/14 to 2024/25

Why did Trina Solar invest in Victoria?

Trina Solar's investment in Victoria represents part of its larger goal to achieve 6.5GW of installed renewable energy capacity across Australia. Vertically integrated solar PV manufacturer Trina Solar acts as developer on some projects across solar and energy storage,its BESS technology is manufactured and integrated by its Trina Storage arm.

Where is the biggest battery plant in Victoria?

The biggest site,the 350 MW Wooreen storage system,is next to the 400 MW Jeeralang gas-fired power station,in Hazelwood North,Victoria. Economies of scale are paying off for large battery developers. Rystad Energy says construction times for recent larger projects have been consistently below one day per megawatt.

Dec 4, 2025 · One of Australia's biggest battery energy storage projects has powered up with renewables developer Equis Australia confirming that the 600 MW / 1.6 GWh Melbourne ...

How solar is used Solar energy is a very flexible energy technology: it can be built as distributed generation (located at or near the point of use) or as a ...

1 day ago···Australia activates 1.6 GWh energy storage facility with 444 Tesla Megapacks The Melbourne Renewable Energy Hub can power up to 200,000 homes during evening peak ...

Aug 25, 2025···Several new community batteries have been launched in Victoria and Queensland, Australia, to soak up distributed solar PV.

Helping Victorians save on their energy bills, tackle climate change and build a cleaner, renewable future.

Apr 8, 2025···Victoria, Australia, is making strides in renewable energy with the recent commencement of construction on the SEC Renewable Energy ...

May 18, 2025···Developer Elgin Energy has secured grid connection approval from AEMO for a 150MW solar-plus-storage site in Victoria.

Apr 30, 2025···The Fulham solar and battery project being built in regional Victoria has been labelled a "game changer" with technology group ...

Mar 18, 2025···The hybrid installation integrates photovoltaic (PV) solar generation with a battery energy storage system (BESS) in Victoria. Located 20 km east of Bendigo, the project will ...

1 day ago···Australia activates 1.6 GWh energy storage facility with 444 Tesla Megapacks The Melbourne Renewable Energy Hub can power up to ...

Mar 18, 2025···Located 20 km east of Bendigo, Victoria, this hybrid facility combines photovoltaic solar generation (PV) and battery energy storage ...

How solar is used Solar energy is a very flexible energy technology: it can be built as distributed generation (located at or near the point of use) or as a central-station, utility-scale solar power ...

Apr 8, 2025···Victoria, Australia, is making strides in renewable energy with the recent commencement of construction on the SEC Renewable Energy Park, a groundbreaking ...

Mar 24, 2025···This must be accepted before being granted permission to develop a project. These articles first appeared in full on our sister site, ...

Apr 10, 2025···The SEC has confirmed that construction has started on the 119MW SEC Renewable Energy Park in Victoria, Australia.

Oct 24, 2024···The volume of large-scale battery energy storage projects under

construction in Australia passed that of solar and wind projects combined in 2023 and the trend has ...

Apr 1, 2025 · Elgin Energy has seen a 330MW solar-plus-storage site featuring a 250MW/500MWh BESS fast-tracked by the Victoria ...

Nov 5, 2025 · The Victoria government in Australia has approved a 300MW/1,200MWh battery energy storage system (BESS) in Gippsland and a 332MW solar PV power plant in the state"s ...
