What is solarzentrum Berlin?

To start tapping more into the potential of solar energy, both in the private and the public sector, the SolarZentrum (solar centre) Berlin was opened in May 2019. It is a component of the "Masterplan Solarcity", which works as an independent advisory centre on the topic of solar energy (SolarZentrum Berlin, only in German).

How many photovoltaic systems are there in Berlin?

Compared to solar thermal energy, there are far more photovoltaic systems registered in Berlin. As of July 7, 2023, 20,985 systems were in place, with a total installed capacity of around 230 MWp.

Is solar energy a building block for Berlin's climate protection strategy?

The expansion of solar energy use is emphasised as a particularly important building block in Berlin's climate protection strategy, since, with over 560,000 buildings in Berlin, there are rooftops and house facades aplenty, unlike suitable wind power sites.

How much solar power does Berlin have?

According to the master plan study for the "Masterplan Solarcity Berlin", the State of Berlin owns 5.4 % of Berlin's buildings. Their roof surfaces account for 8.3 % of the solar potential (SenWEB 2019). On the public buildings in Berlin, there are 691 PV systems with a total installed capacity of 42.1 MWp (as of April 1, 2023).

May 27, 2025&nbsp;&#0183;&nbsp;&nbsp;&nbsp;5 largest upcoming solar PV projects in Germany for 2025 Germany's renewable energy growth relies on the success of major solar projects. Here are five developments that ...
