What is a model BC battery cabinet?

The Model BC Battery Cabinet is UL Listed and finished in textured red or beige to match the various Gamewell-FCI control panels. The cabinet will house up to four (4) model B-31 or two (2) model B-55 batteries. The heavy duty cabinet, constructed of 16 gauge steel, is phosphate treated and primed with zinc chromate prior to painting.

What is a PWRcell Battery Cabinet?

No other smart battery offers the power and flexibility of PWRcell. The PWRcell Battery Cabinet allows system owners the flexibility to scale from an economical 9kWh to a massive 18kWh by installing additional battery modules to the PWRcell Battery Cabinet. An existing PWRcell Battery Cabinet can be upgraded with additional modules.

How many modules are in a PWRcell Battery Cabinet?

Inside of the PWRcell Battery Cabinet, battery modules are stacked two deep on three levels, allowing for up to six modules to be connected in series. You can upgrade an existing PWRcell Battery Cabinet by adding Battery Modules and a Module Spacer (APKE00008).

What should a battery cabinet have?

Handles - provides an easy way to handle the battery cabinet. Battery holding brackets - they ensure the battery is always in a fixed position (no movement). Cooling plates - some have cooling plates that help to control the enclosure temperature. Insulation system- insulation is also a safety measure a battery cabinet should have.

When this is applicable, the quantity of system cabinets and the battery wiring distances are minimized. Where required, external battery cabinets can be close-nipped to the control panel ...
