Can a company sell solar panels in Costa Rica?

Most companies selling solar systems are assembled Asian solar panels with some U.S. made components. In 2016, the Costa Rican government approved a new regulation which allows individuals and companies to produce solar energy (up to 15 percent of the users per district) and sell up to 49 percent of their excess production back to the grid.

Who is a good solar installer in Costa Rica?

Lester provides excellent service and value for solar projects in Costa Rica. We were so happy that Neil came out and fixed our system that had just been installed by another installer. We fought for months with that installer to come out to fix their system. Finally we called Sunnyside Solar Solutions and talked to Neil.

How many solar systems are installed in Costa Rica?

ICE has installed 2,559 systems in homes, 649 systems installed for community activities, and 132 systems installed in conservation areas. There are three major solar parks in Costa Rica; Juanilama by Coopeguanacaste, Pocosol by Coopelesca, and Valle Escondido that will be built in 2021 by BMR Energy, contracted by ICE but not in use.

Are there private solar companies in Costa Rica?

There are many private companies, most of them members of ACESOLAR (Costa Rican Solar Energy Association), and the CDG (Chamber of Distributed Energy Generation of Costa Rica). They have changed the current legislation opening the market and allowing more solar panels and batteries to be installed.

We design residential (large, small, grid-tied, and off-grid), commercial solar applications. A Solar System that allows our customers to benefit from the energy of the Sun, while keeping their ...
