Do I need a power adapter in Cuba?

If you are visiting Cuba from the United States, you should bring a power adapter because US Type A or B outlets may not be readily available. If your device runs on 110 volts or is dual voltage, and the plug fits in a Cuban power outlet, it will work without a plug adapter in Cuba.

What plugs and adapters should I bring to Cuba?

Here are some tips about plugs and adapters when you travel to Cuba: If you are visiting Cuba from the United States, you should bring a power adapter because US Type A or B outlets may not be readily available.

What type of power outlet does Cuba use?

Cuba uses a power outlet type known as Type A and Type B, which have different plug shapes and voltage levels. To fit these outlets, it is recommended to buy a power adapter that supports both Type A and Type B plugs. This type of adapter often comes with multiple interchangeable plugs or has a universal design that can fit different outlets.

What type of power plug is used in Cuba?

In Cuba, power plugs and sockets (outlets) of type A, type B, type C and type L are used. The standard voltage is 110 / 220 V at a frequency of 60 Hz. Cuba, a Caribbean island nation, is known for its vibrant culture, stunning beaches, and fascinating history.
