What is a Sol-Ark 60k-3p 480v-n?

The Sol-Ark 60K-3P-480V-N is a 60,000 watt (60kW) three-phase 480Vac output and 97.5% efficiency hybrid inverter that works grid-connected or off-grid for most commercial installations.

What is an off grid solar power system?

Off grid solar power system doesn't connect to the power grid. In general, it includes solar panels, charger controller, batteries and inverter. This system will store the solar power into the batteries, batteries energy will be converted the electricity power to supply the appliances working through the inverter.

What is an on grid solar power system?

In general, it includes solar panels, charger controller, batteries and inverter. This system will store the solar power into the batteries, batteries energy will be converted the electricity power to supply the appliances working through the inverter. On grid solar power system connects to the power grid.

What is a hybrid inverter?

The easy to install and high performing hybrid inverter delivers continuous power for grid-tied or off-grid stand-alone solar power generation for large commercial systems with 480Vac three-phase output and 48Vdc battery backup power. **WANT A SOLAR PANEL SYSTEM AT THE LOWEST COST?
