Will gei power be Zambia's first solar plant with battery storage?

Turkey's YEO is partnering with Zambian sustainable energy company GEI Power to develop a 60 MW/20 MWh solar plant with battery storage in Choma district, southern Zambia. The facility has been touted as Zambia's first solar plant with battery storage.

How does solar power work in Zambia?

Solar power in Zambia primarily uses solar photovoltaics (PV) to generate electricity. Several communities, entrepreneurs, the government, and NGOs collaborate to increase the share of solar power in the country.

Which companies offer solar home systems in Zambia?

In Zambia, Vitalite offers pay-as-you-go home systems using modern mobile technology to help low-income households. Aurora Power Solutions also operates in the region, focusing on solar power.

Which company will start a solar project in Zambia soon?

Aurora Power Solutions operates across Sub Saharan Africa focusing on solar power. They mainly provide their services in South Africa, but will start a project in Zambia soon. Vitalite offers pay-as-you-go home systems throughout Zambia.

Dec 1, 2025 · Zambia launches Choma Solar, a 60 MW plant with 20 MWh batteries to stabilize its rural grid, cut outages, and support the country's green energy transition.

May 6, 2024 · Turkey's YEO is partnering with Zambian sustainable energy company GEI Power to develop a 60 MW/20 MWh solar plant with battery storage in Choma district, southern Zambia.

4 days ago · Zambia has taken another step towards scaling up its renewable energy
